RAISING THE REVENUE.

WHISKY AND TOBACCO PERPLEXING THE COMMITTEE.

Democratic Members of the Ways and Means Committee Agree Upon an Income Tax.

DIRECTOR OF THE MINT FREESTON MAKES HIS REPORT.

Some Interesting Figures Upon the Finances of the United States and of the World.

Washington, November 30.—Those who have been counting upon an internal revenue bill to be reported by the Democratic members of the committee on ways and means, which will revolutionize the whisky and tobacco tax may be disappointed. The whole question of internal revenue has been discussed and a wide range of plans canvassed, the question has been found to be the most difficult the committee has ever had to deal with and it is asserted that some members of the committee have changed their views on the material points since an exchange of opinion has been had. It is said for instance that almost all the members were favorable to a heavy increase of the tax upon whisky and tobacco when they first met in a committee, but it is now asserted that the view of many has undergone such a radical change that it is even doubtful whether a majority will be found to be favorable to any increase whatever.

The members of the committee also had reason for hesitating that a bill to tax the tobacco schedule. It is asserted that the influence of Carlisle is being exerted to secure a material increase of these revenue rates.

Later legislation in conformity of the proposition that the mint has not yet been passed beyond the proposition of a tax on the net surplus of corporations and the income tax. It is said that the bill will be reported upon the committee and it is not believed that the committee will find much to recommend in the proposition. It is said that the bill will be reported upon the committee and it is not believed that the committee will find much to recommend in the proposition.

The great problem which is now awaiting the attention of the committee is the question of making good the deficiency which will be caused by the tariff reform. It is said that the committee will reach that conclusion that the best way to deal with it will be to increase the tax upon whisky and tobacco and to increase the tax upon tobacco when they first met in a committee, but it is now asserted that the view of many has undergone such a radical change that it is even doubtful whether a majority will be found to be favorable to any increase whatever.

The United States Mint.
Washington, November 30.—The President's director of the mint has submitted his report on the operations of the mint and assay office for the fiscal year ending June 30, 1893. The value of gold deposits, including redemptions during the fiscal year, was \$40,000,000. The value of silver deposits, including redemptions, was \$100,000,000. The amount of silver deposited aggregated \$1,200,000,000. The value of gold coins produced during the fiscal year was \$100,000,000. The value of silver coins produced during the fiscal year was \$100,000,000.

Weather Information.
A touch of low pressure extends from the lower left to the upper right, with high pressure over the central and western portions of the country, with very low barometer readings over the Gulf of Mexico. New York high pressure area with attendant squalls and rain, with fair weather prevailing elsewhere.
